

THE GLOBE COMPANY

Globes mean the world to us

Italian Craftsmanship

Zoffoli Srl, based in Rimini, Italy, has been manufacturing bar globes for three generations, utilising skills that have been handed down father to son. Although today's production is a modern affair, the same care and attention is given to each piece to ensure that it is manufactured to a very high standard. Craftsmen still add the finishing touches by hand to give each globe that personal touch of class.

The globe balls are made by layering printed paper (called gores) over a vinyl hemisphere to create the complete image on the surface. This highly skilled process used to be done by craftsmen and was a very time consuming job but today it is performed by machine which can achieve a very accurate placement in a fraction of the time. Zoffoli designers have come up with many imaginative designs, giving the customer plenty of choice as well as quality.

The 'Classica' range exemplifies the 'traditional' bar globe, with a replica 17th century map used as the basis for the cartography on the globe ball. The 'Gea' range in contrast, offers an up to date map on the bar globe, presented in a thoroughly modern two-colour design.

All bar globes require some assembly but this is very easy to do and takes only a few minutes to complete. Shipping large items in this pre assembled way reduces shipping costs and the risk of transit damage.

Whether you prefer the traditional bar globe or something a little more modern, we have something for you.

We hope you enjoy our catalogue.

Majestic Bar Globes

Art 21/13

(Old world map)

The 24" diameter globe ball can house all your favourite tipples and many glasses. Beautifully decorated with gilt leaf details around the base and horizon ring, this piece can only be described as majestic. The solid wood base is completed in a luxuriant mahogany finish.

Stylish Bar Globes

Art 8/A1

(Old world map)

Beautifully styled, the tri leg design of the Art 8 is both distinctive and pleasing to the eye. The 50cm globe ball can house ample supplies of your favourite drinks and accompanying glasses. The base, horizon ring and meridian are made from beech stained to a dark walnut finish. This globe does not have the highly decorated features found on most bar globes but instead relies on its understated design.

Art 39/11

(Old world map, castors)

Do you have a corner of a room to fill? If so, then this bar globe is the perfect choice as it has been specifically designed to make the most of the space in a room. The lower bottle tray can hold many bottles enabling you to be well stocked for that special occasion. The turned legs are finished in dark walnut and the base and horizon ring are highly decorated with 17th century designs.

Art 51

(Old world map, castors)

A very popular bar globe. The Art 51 features compact style with no compromise on capacity. Bottles can be stored on the base shelf so that as many as 12 glasses can be accommodated inside the globe ball. Solid hardwood legs complement this bar globe's traditional appeal.

Gea New Ocean Globe Bars

The Art numbers 810, 811 and 812 are modelled from the Art 809 but include a bar. This style of globe comes in three different sizes to suit any room or budget. As with all the Gea range the Art numbers 810, 811 and 812 feature a modern map with excellent detail.

Art 810

(Up to date map)

Total Diameter	(78.5cms)	24"
Height	(95cms)	60cm

Art 811

(Up to date map)

Total Diameter	(64.5cms)	20"
Height	(90cms)	50cm

Art 812

(Up to date map)

Total Diameter	(64.5cms)	16"
Height	(90cms)	40cm

Art 822

(Up to date map, castors)

The Art 822 is the most luxurious 40cm bar globe available. Features include a solid hardwood base and legs as well as a brass finished metal drinks bottle container on the base. This bar globe is ideal for those who want no compromise on quality but need the globe to fit into a more compact space.

Total Diameter	(52cms)	16"
Height	(87cms)	40cm

Gea New Ocean Globes

Art 809

(Up to date map, no bar)

The Art 809 is the flagship of the Gea range. It was the first Zoffoli globe to include a modern map. The Art 809 features a 24" globe ball with exceptional detail and a metal meridian that truly shows the quality of this magnificent piece. This globe is ideal for those who like true antique replica style with the functionality of a modern map.

Total Diameter	(78.5cms)	24"
Height	(95cms)	60cm

Art 823

(Up to date map, no bar)

This globe has been designed for all those who like the up to date map with a classic stand. The Art 823 features a metal meridian which brings out the magnificence of the globe ball.

Total Diameter	(64.5cms)	20"
Height	(90cms)	50cm
